

EU Deforestation Regulation (EUDR) Policy Statement

Kingfisher Rubber & Plastics Ltd.

Kingfisher Rubber & Plastics Ltd is committed to responsible sourcing, ethical procurement and compliance with all applicable environmental legislation.

Our business imports, manufactures and distributes a wide range of rubber and plastic products, including EPDM, PVC, Nitrile (NBR), Neoprene (CR), Silicone and other synthetic elastomers. We recognise that the majority of these materials are not currently within the scope of the European Union Deforestation Regulation (EU) 2023/1115 (EUDR).

Where products supplied by Kingfisher Rubber & Plastics Ltd contain **natural rubber** or any other commodity covered by the EUDR, we are committed to ensuring compliance with the Regulation by:

- Identifying products that fall within the scope of the EUDR.
- Working with our suppliers to obtain the required due diligence information and supporting documentation.
- Ensuring that applicable materials originate from legal sources and are not associated with deforestation or forest degradation after 31 December 2020.
- Maintaining appropriate records to demonstrate compliance.

For products manufactured entirely from synthetic polymers or elastomers that are outside the scope of the Regulation, EUDR requirements do not apply. Kingfisher Rubber & Plastics Ltd will continue to monitor legislative developments and review our We expect our suppliers to maintain appropriate traceability and due diligence procedures and to cooperate fully in providing information necessary to demonstrate regulatory compliance.

Kingfisher Rubber & Plastics Ltd remains committed to responsible sourcing and supporting sustainable supply chains throughout our business operations.
