

Site Visits Policy Site Access & Customer Visits

Due to the sensitive and confidential nature of the work undertaken at our premises, **Kingfisher Rubber & Plastics Ltd does not permit customer, supplier, or other external site visits under any circumstances.**

This policy is in place to protect the confidentiality of our operations, manufacturing processes, customer information and intellectual property.

Kingfisher Rubber & Plastics Ltd operates under **Non-Disclosure Agreements (NDAs) and contractual confidentiality obligations with multiple customers.** These agreements place strict requirements on us regarding access to our facilities and the protection of confidential information.

As a result, we are unable to accommodate requests for site tours, inspections, customer visits, supplier visits or other non-essential external access to our premises.

We appreciate that customers and suppliers may occasionally wish to visit our facilities as part of their due diligence, quality assurance or procurement processes. However, our contractual confidentiality obligations mean that **we must maintain a strict no-site-visit policy, without exception.**

We thank our customers and suppliers for respecting this requirement and the confidentiality obligations under which Kingfisher Rubber & Plastics Ltd operates.

Kingfisher Rubber & Plastics Ltd
Site Access & Confidentiality Policy
